

Gudikati Sumanth Reddy

Software Engineer | Frontend Developer | AI-Assisted Development

+91 9849263688 | sumanthreddygudikati@gmail.com | [LinkedIn](#) | [GitHub](#)

Bengaluru, India | Immediate Joiner (No Notice Period)

PROFESSIONAL SUMMARY

Frontend Developer with 1+ year of experience building responsive and scalable web applications using React.js, Next.js, and modern JavaScript. Skilled in integrating APIs and improving user experience. Strong foundation in frontend technologies with hands-on experience in real-world projects across education, healthcare.

TECHNICAL SKILLS

Frontend	HTML, CSS, Bootstrap JavaScript, React JS, Next JS
AI Tools	GitHub Copilot, ChatGPT, Google Gemini, Claude AI, DeepSeek
Backend Basics	Node JS, SQL, Fast API (API Integration)
Tools & Productivity	Git, GitHub
Soft Skills	Deadline Management, AI-Assisted Problem Solving, Documentation

PROFESSIONAL EXPERIENCE

Software Engineer

July 2024 – Present

Zyptr Soft Labs Pvt. Ltd. | Bengaluru, India

Infakt – School Management Application

- Developed and maintained scalable **React.js frontend components** for a multi-role school management system, ensuring high code quality and reusability.
- Built responsive and user-friendly UI using **HTML5, CSS3, and JavaScript**, ensuring cross-browser compatibility and mobile responsiveness.
- Integrated **Fast API-based RESTful APIs** and managed asynchronous data flows to deliver seamless and dynamic user experiences.
- Worked on multiple role-based modules including **Super Admin, SME (Subject Matter Expert), Academic Head (AH), School Admin, Teacher, and Student**.
- Implemented frontend and API integration for **SME, Academic Head, Subscription, Access Management, School, and School Admin modules** under the Super Admin panel.
- Developed features for **Teacher and Student modules**, including **Tickets, Help/Support, Student Management, and Announcements**.
- Collaborated with backend developers and team members to gather requirements and translate them into functional frontend features.
- Applied clean coding practices and reusable component architecture to improve application performance and maintainability.
- Participated in **Agile development processes**, including sprint planning, daily stand-ups, and code reviews.
- Utilized AI tools such as **ChatGPT, Claude, Gemini, and GitHub Copilot** to accelerate development, debug issues, and improve productivity.

Hinkapin – Hospital Management Application

- Developed and maintained scalable **React.js frontend components** for a hospital management system, ensuring high code quality and reusability.
- Built responsive and intuitive user interfaces using **HTML5, CSS3, and JavaScript**, ensuring cross-browser

compatibility and mobile responsiveness.

- Integrated **Fast API-based RESTful APIs** to manage patient data, appointments, and hospital workflows with seamless data flow.
- Worked on multiple modules including **Admin, Doctor, and Patient management systems** to streamline hospital operations.
- Implemented features such as **appointment scheduling, patient records management, notifications, and support/help modules**.
- Collaborated with backend developers and stakeholders to gather requirements and translate them into functional frontend features.
- Applied **component-based architecture** to improve code maintainability and reusability across the application.
- Participated in **Agile development processes**, including sprint planning, daily stand-ups, and code reviews.
- Utilized AI tools such as **ChatGPT, GitHub Copilot, and Claude** to accelerate development and efficiently debug issues.
- Ensured performance optimization and smooth user experience across different devices and browsers.

Associate Developer

July 2024 – March 2025

Fentastech Pvt Ltd. | Hyderabad, India

- Developed and maintained responsive web pages and websites using **HTML5, CSS3, and JavaScript**.
- Designed user-friendly and visually appealing UI layouts ensuring **cross-browser compatibility** and mobile responsiveness.
- Implemented modern **responsive design techniques** using media queries and flexible layouts.
- Collaborated with team members to understand client requirements and deliver high-quality web solutions.
- Improved website performance and usability through clean and optimized code practices.
- Participated in **Agile development processes**, including sprint planning, daily stand-ups, and code reviews.
- Assisted in debugging and resolving frontend issues to ensure smooth functionality across different devices and browsers.
- Gained hands-on experience in building real-world web applications and enhancing frontend development skills.

AI-DRIVEN DEVELOPMENT APPROACH

Consistently leverages AI tools to overcome critical challenges and deliver under pressure:

- GitHub Copilot – Real-time AI code suggestions to speed up component development and reduce boilerplate.
- ChatGPT & Claude AI – Used for architectural guidance, debugging complex logic, and generating documentation drafts.
- Google Gemini – Applied for research, code reviews, and exploring optimal design patterns.
- DeepSeek – Leveraged for code analysis and resolving edge-case programming challenges under deadline pressure.

EDUCATION

Bachelor of Engineering – Mechanical Engineering

Graduated 2023

SVCE College of Engineering, Tirupati

CGPA: 8.55 / 10.0

ADDITIONAL INFORMATION

- Availability: Immediate joiner – No notice period.
- Strong documentation skills with hands-on experience managing Google Sheets for project tracking.
- Passionate about integrating AI into daily development workflows to improve productivity and output quality.
- Quick learner with a growth mindset, having transitioned successfully from a non-IT background (Mechanical Engineering) to software development.
